WORK EXPERIENCE

Full-Stack Developer bidi Bildung Digital GmbH

05/2023 - 11/2024

Dresden, Germany

Responsibility

- Improved and Developed full-stack solutions with NodeJs, NestJs, Angular, and Firebase, ensuring smooth backend logic and responsive front-end design.
- Implement RESTful web services, perform code reviews and maintain CI/CD Pipeline.
- Integrated external APIs to enhance functionality and improve overall application performance.
- Managed cloud infrastructure on GCP, optimizing performance and implementing security measures.
- Administered databases (MongoDB, Firestore), ensuring data consistency, integrity, and security.

Full-Stack Developer (Working Student) Bosch Rexroth AG

10/2022 - 04/2023

Ulm, Germany

Responsibility

- Developed features to enhance user experience and improve overall product functionality.
- Guided partners in software lifecycle stages, including requirements and deployment.
- Assisted backend developers with troubleshooting and Node.js/MySQL integration.

Full-Stack Developer (Internship) Bosch Rexroth AG

04/2022 - 10/2022

Ulm, Germany

Responsibility

- Collaborated on a web-shop project for mobile hydraulic products.
- Improved code for better browser compatibility and responsiveness.
- Implemented cloud deployment and CI/CD pipelines using Azure.

EDUCATION

Masters Automotive Software Engineering Technische Universität Chemnitz

Chemnitz, Germany

Bsc in Software Engineering with Multimedia Limkokwing University of Creative Technology

Cyberjaya, Malaysia

PERSONAL PROJECTS

Doctor's Chamber

- A MERN stack web app for the dental appointment system.
- Technologies: React, Tailwind CSS, Express.js, MongoDB, Stripe, Firebase, Jwt.
- GitHub: <https://github.com/ashiqur-russel/doctors-portal-client>

Auto-Haus

- A MERN Stack web app for selling used vehicles.
- Technologies: React, Tailwind CSS, Express.js, MongoDB, Stripe, Firebase, Jwt.
- GitHub: <https://github.com/ashiqur-russel/resale-product-client>

CERTIFICATION & COURSES

Next Level Web development (Programming Hero) (10/2024 - Present)

Currently developing advanced skills in TypeScript, Express.js, MongoDB, PostgreSQL, AWS S3, EC2, Redis, Docker.

NestJs Fundamental Course (Official) (12/2023 - 01/2024)

I have learned the core principles of NestJS, including setting up the development environment, mastering controllers and routing for robust APIs, and utilizing dependency injection for modular and scalable applications

Level 1 Web Development Course (Programming Hero) (06/2022 - 12/2022)

24-week intense web development Bootcamp

Meta Front-End Developer Professional Certificate (11/2022 - 04/2023)

Full Stack web development course taught my Meta Developers focused on HTML, CSS, GIT, Javascript, React, OOP, and Responsive web design.
